Dr Misch ask that I send this to you....

Thank you for the terrific contribution to the science and art of implant dentistry. I will tell everyone about how great it is.

Dear Marco,

Fantastic! Your new book that was translated into English was just superb. I cannot tell you how proud I am of your accomplishments. Ugo would have been the proudest of all.

My recent book is going to be reprinted deleting all the gramatical errors which were mostly my fault because I didn't go over the final galleys - but it will be a much larger book because I will be adding much more of the most needed works.

Keep up your magnificent work and know that I am one of your great admirers.

With my warmest regards,

Len

and give my love to your lovely wife.
